THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

NOTICE

The Copyright Act of 1909 provides that, of the articles deposited for copyright registration, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

This notice includes any *printed and published* copyright deposits, such as books, periodicals, dramatic compositions, musical compositions, engravings, cuts or prints, lithographs, photo-engravings, or photographs. Manuscripts or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

To secure such possible return the claimant of copyright of record should make formal request for the return of the articles, which must be separately and definitely specified. A suitable blank will be supplied on request. Address REGISTER OF COPYRIGHTS, *Library of Congress, Washington, D. C.*

NEW SERIES, VOLUME 35

No. 2

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

NOTICE

The Copyright Act of 1909 provides that, of the articles deposited for copyright registration, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

This notice includes any *printed and published* copyright deposits, such as books, periodicals, dramatic compositions, musical compositions, engravings, cuts or prints, lithographs, photo-engravings, or photographs. Manuscripts or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

No. 3

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

NOTICE

The Copyright Act of 1909 provides that, of the articles deposited for copyright registration, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

This notice includes any *printed and published* copyright deposits, such as books, periodicals, dramatic compositions, musical compositions, engravings, cuts or prints, lithographs, photo-engravings, or photographs. Manuscripts or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

No. 4

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

NOTICE

The Copyright Act of 1909 provides that, of the articles deposited for copyright registration, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

This notice includes any *printed and published* copyright deposits, such as books, periodicals, dramatic compositions, musical compositions, engravings, cuts or prints, lithographs, photo-engravings, or photographs. Manuscripts or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

NEW SERIES, VOLUME 35

No. 5

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

Part 1, Group 1, Books proper.....	\$3.00
Part 1, Group 2, Pamphlets, Contributions to Newspapers or Periodicals, Lectures, and Maps.....	3.00

NOTICE

The Copyright Act of 1909 provides that, of the articles deposited for copyright registration, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

This notice includes any *printed and published* copyright deposits, such as books, periodicals, dramatic compositions, musical compositions, engravings, cuts or prints, lithographs, photo-engravings, or photographs. Manuscripts or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

To secure such possible return the claimant of copyright of record should make formal request for the return of the articles, which must be separately and definitely specified. A suitable blank will be supplied on request. Address REGISTER OF COPYRIGHTS, *Library of Congress, Washington, D. C.*

No. 6

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged in two alphabets of proprietors, as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

Part 1, Group 1, Books proper.....	\$3. 00

NOTICE

The Copyright Act of 1909 provides that, of the articles deposited for copyright registration, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

This notice includes any *printed and published* copyright deposits, such as books, periodicals, dramatic compositions, musical compositions, engravings, cuts or prints, lithographs, photo-engravings, or photographs. Manuscripts or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

Part 4 also contains in two separate alphabets of proprietors, the titles of commercial prints and labels. These will be found at the end of each issue.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations, including commercial prints and labels used for articles of merchandise. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

NEW SERIES, VOLUME 35

No. 8

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

Part 4 also contains in two separate alphabets of proprietors, the titles of commercial prints and labels. These will be found at the end of each issue.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations, including commercial prints and labels used for articles of merchandise. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The annual index of proprietors is furnished for this part in the final issue for the year. The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

NEW SERIES, VOLUME 35

No. 9

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

Part 4 also contains in two separate alphabets of proprietors, the titles of commercial prints and labels. These will be found at the end of each issue.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations, including commercial prints and labels used for articles of merchandise. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The annual index contains the names of all proprietors.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

The Copyright Act of 1909 provides that, of the articles deposited for copyright registration, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The Act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright, unless reserved, under the provisions of section 60 of the Act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that, insofar as any copyright articles deposited from January 1, 1929, to December 31, 1935, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles, unless reserved, may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1940.

No. 10

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

Part 4 also contains in two separate alphabets of proprietors, the titles of commercial prints and labels. These will be found at the end of each issue.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations, including commercial prints and labels used for articles of merchandise. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The annual index contains the names of all proprietors.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

No. 11

· UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

Part 4 also contains in two separate alphabets of proprietors, the titles of commercial prints and labels. These will be found at the end of each issue.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations, including commercial prints and labels used for articles of merchandise. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The annual index contains the names of all proprietors.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

No. 12

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON: 1940

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

Part 4 also contains in two separate alphabets of proprietors, the titles of commercial prints and labels. These will be found at the end of each issue.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations, including commercial prints and labels used for articles of merchandise. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The annual index contains the names of all proprietors.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration".

The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:

VOLUME INDEX FOR THE YEAR 1940

Published by authority of the Acts of Congress of March 3, 1891
of June 30, 1906, and of March 4, 1909

UNITED STATES
GOVERNMENT PRINTING OFFICE
WASHINGTON : 1941

THE Catalog of Copyright Entries is published in four parts. Part 4, formerly issued quarterly, but now issued monthly, is arranged as follows:

I. Containing Class G, Works of art (giving a list of the photographs or other identifying reproductions deposited according to law with the applications for copyright of Drawings, Paintings, Statues, Statuary, and Models or Designs for works of art). In this class a subalphabet of titles is used when the copyright proprietor and artist are the same, this identity being indicated by the use of an asterisk (*) after the name of the proprietor. A subalphabet of artists is used when the proprietor and artists are different.

II. Containing titles for Class H, Reproductions of a work of art; Class I, Drawings or plastic works of a scientific or technical character; Class J, Photographs (except Motion pictures); and Class K, Prints and pictorial illustrations. In these classes a subalphabet of artists and titles is also used.

Part 4 also contains in two separate alphabets of proprietors, the titles of commercial prints and labels. These will be found at the end of each issue.

A list of copyright renewals will be found at the end of each alphabet of proprietors.

Under the act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalog, the copyright notice after each title is abbreviated. The abbreviations used in this part are as follows: "G", Class G, Works of art; "H", Class H, Reproductions of a work of art; "I", Class I, Drawings or plastic works of a scientific or technical character; "J", Class J, Photographs; and "K", Class K, Prints and pictorial illustrations, including commercial prints and labels used for articles of merchandise. "©" implies copyright registration of a published work, followed by a date of publication. "© 1 c." stands for copyright registration of an unpublished work, followed by date of receipt in the Copyright Office of the photograph or other identifying reproduction.

The annual index contains the names of all proprietors.

The act of March 4, 1909, in effect from July 1, 1909, provides that the Catalog of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The subscription price for Part 4, which must be for the complete calendar year, is \$2.00, payable in advance to the Superintendent of Documents, by postal money order, express order, or New York draft.

Under the provisions of the act of Congress, approved May 23, 1928, the prices of the various parts of the Catalog are now as follows:
